

# Digitalisation Research and Network Meeting.

DigiMeet 2023

Diversity in digital transformation

## Programme

28 November, 9:30 – 17:00 CET

Registration: <https://eveeno.com/119486743>

The Bavarian Research Institute for Digital Transformation (bidt), the Center for Advanced Internet Studies (CAIS) and the Weizenbaum Institute (WI), in cooperation with the Leibniz Institute for Media Research – Hans Bredow Institute, invite doctoral and postdoctoral researchers to present their work at the joint Digitalisation Research and Network Meeting – DigiMeet.

**09:30 - 10:00: Welcome and Introduction**, Greeting by Prof. Dr. Hanna Krasnova (Director WI)

**10:00 - 11:00: Keynote on “HateAid – Legitimately against hate on the internet. About an NGO’s fight for human rights in the digital space”** by Franziska Benning, Internal Lawyer at HateAid gGmbH

**11:00 - 12:30: Parallel Sessions (1-8)**

**1) Special Session A: Towards a diverse digital society** (Chair by Dr. Annamaria Fabian, Uni Bayreuth/bidt)

**Samuel T. Simon** (CAIS/RUB): Participatory agenda setting: Mapping the needs and topics of a diverse society in science.

**Katharina Leyrer** (FAU Nuremberg/bidt): Beyond (information) diversity: Assessing the influence of internet information intermediaries on society.

**Verena Maren Straßburger** (Charité/MSH): Towards a more comprehensive assessment of gender and diversity: Proposal for a Diversity Minimal Item Set (DiMIS) and its application in a survey among medical school students.

**Andressa de Bittencourt Siqueira** (PUCRS/Brazil): Diversity Implications through Automated Content Removal Systems: Lessons and Perspectives Based on the Oversight Board’s Decision Framework.

**2) Special Session B: AI and diversity challenges** (Chair by Prof. Dr. Jürgen Pfeffer, TUM/bidt)

**Raimund Lehle** (Uni Hohenheim): The Impact of Digitalization on discretionary decisions.

**Frauke Rohden** (Univ. of Oslo, Norway): AI in medicine – solving or cementing knowledge gaps?

**Goda Klumbyte** (Uni Kassel): Feminist methodologies for diversity and accountability in machine learning systems design

**Dr. Kendra Pöhlmann** (OTH Regensburg): Diversity: Important, Fair, and Sustainable – But Often Overlooked in AI Applications.

# Digitalisation Research and Network Meeting.

## 12:30 - 13:30: Lunch Break

## 13:30 - 14:30: Open Spaces

### Open Space 1

- Dr. Sabine Lang (FAU Nuremberg): Using computational methods for provenance research: chances, challenges and possible risks

### Open Space 2

- Dr. Alisa Maksimova (CAIS): Learning about AI in museums: how exhibitions present new technology to the public

### Open Space 3

- Samuel Simon (CAIS/RUB): Persona Co-Creation Workshop: Imagining the role of the facilitator in digital transformation research processes

### Open Space 4

- Alexandra Florea (Uni Paderborn): [pilot] Computational Demonstrator for Scholarly Literature Review

### Open Space 5

- Dr. Mitra Shamsi (CAIS): Practicing Digital Feminism During the Rise of Nationalism in the Iranian Women, Life, Freedom Uprising

### Open Space 6

- Viddy Ranawijaya (Uni Erfurt): Mapping Digitalization Policies in Southeast Asia: A Systematic Literature Review

## 14:30 - 16:00: Parallel Workshops

Dr. Josephine B. Schmitt (CAIS): “Resilience for Researchers – Dealing with hate speech and right-wing agitation in the academic context”

Prof. Dr. Frauke Mörike (TU Dortmund): “Actually relevant?! ... Designing inclusive work systems”

## 16:00 - 16:15: Coffee Break

## 16:15 - 17:00: Roundtable Discussion: Intersectional Perspectives on Digitalisation and AI

Chair: Katharina Mosene, HBI

Experts: Jun.-Prof. Dr. Katrin Köppert (HGB Leipzig), Pia Sombetzki (AlgorithmWatch), Dr. Nakeema Stefflbauer (Frauenloop)

In cooperation with:

LEIBNIZ INSTITUTE  
FOR MEDIA RESEARCH  
HANS-BREDOW-INSTITUT
